[Your Name / NOVISS Analyst]

PREPARED FOR

[Client Name or Private Client]

Executive Summary

This reportpresents a structuredanalysisof the publicly available online footprint associated with the provided starting information.

Key Findings Overview

Total Linked Public Profiles Identified:**[X]**

Primary Platforms with Activity:**[X/Twitter, Instagram, Reddit, Discord]**

Estimated Level of Exposure:**[Low / Moderate / High]**

Overall Confidence Rating:● **HIGH**

Confidence Ratings Legend:
● *High – Corroborated across independent sources.* ● *Medium – Pattern-based with limited verification.* ● *Low – Tentative inference.*

Summary of Notable Insights

- **Network Presence:** Identical handles were verified across 4 platforms with consistent bio data.
- **Geographic Signal:** Posting patterns align 100% with Brisbane/AEST timezone activity.
- **Subject Context:** Recent activity suggests primary involvement in specific gaming communities.

Recommendations

"It is recommended to monitor the Discord handle identified in Section 2 for real-time activity shifts, as this profile exhibits the highest frequency of interaction."

Section 1 – Starting Information & Scope

Provided Assets

- **Primaryidentifier:** @examplehandle
- **Contextual clues:** [Brief real name hint, location clue, or provided email]
- **Focus Areas:** [e.g., Identifying physical location, linking gaming aliases]

Scope of Investigation

Theinvestigation spannedmajorsocial media, gaming networks (Steam, Roblox, Twitch), developer forums, and Reddit. Methodologyrelieson open-sourcecross-referencing and pattern analysis. Restricted to public data.

Section 2 – Profile Discovery & Linking

Visual Network Mapping

VISUAL CONNECTION DIAGRAM

Insert nodesforeachprofile. Useconnection linesfor:
(Solid = Confirmed, Dashed = Probable, Dotted = Possible)

Profile Inventory

PLATFORM	HANDLE / LINK	CONFIDENCE	NOTES
X (Twitter)	@examplehandle	● HIGH	Account active since 2022. Matches provided profile photo.
Instagram	@examplehandle	● HIGH	Bio includes link to personal website/blog.
Reddit	u/examplehandle	● MEDIUM	Shares identical hobby interests and phrasing.
Steam	ID: examplehandle	● HIGH	Matches Discord avatar and username exactly.
Discord	example#1234	● MEDIUM	Active in regional Brisbane servers.

Linking Rationalization

"Consistent avatar usage across Steam and Discord, combined with identical bio phrasing on X and Instagram, provides a high-confidence link. Posting timestamps on Reddit further align with the subjects' known timezone (AEST)."

Section 3 – Activity & Timeline Analysis

Chronological Activity

2022 – 2023

Initial Footprint Creation
Creation of primary social profiles and Steam account. Initial activity focused on broad gaming topics.

2024

Shift to Specialized Communities
Increased frequency of posts in niche developer forums and local regional subreddits.

2025 – 2026

Current Active Phase
Most recent activity observed within the last 48 hours on Discord and Instagram. High engagement levels during evening hours AEST.

Posting Patterns

- **Peak Activity:** 6:00 PM – 11:00 PM AEST
- **Recurring Themes:** Gaming, Cybersecurity, local events in South East Queensland.
- **Tone:** Neutral and technically oriented.

Section 4 – Contextual Insights

Location & Environmental Clues

- **Primary Timezone:**AEST / Australian Eastern Standard Time.
- **Geographic Indicators:** References to specific venues in Brisbane CBD and West End identified in 2024 public posts.
- **Contextual Signals:** Use of Australian-English spelling conventions and local colloquialisms.

Reverse Image Search Results

Analysis of profile picturessharedacross platforms:

Avatar used on X was traced back to a public photography portfolio from 2021. No other private or unlinked instances of the photo were found.

Section 5 – Supporting Evidence

Anonymised Visual Records

REDACTED SCREENSHOT 1

Evidence Ref 01: X Profile verification. Captured DD/MM/2026.
Relevance: Confirms metadata synchronization with Instagram bio.

Section 6 – Conclusion

The subject maintains a **moderately visible** public online presence. Through the linking of five independent platforms, we have confirmed a consistent digital footprint that spans gaming and social communities.

The data suggests the subject is located in the South East Queensland region, with patterns of activity consistent over the last 4 years.

Final Reliability Assessment

Entity Linkage:	● HIGH
Timeline Accuracy:	● MEDIUM-HIGH
Location Confidence:	● MEDIUM

Appendix

Search Parameters

PlatformsSearched: X, Facebook,Instagram, LinkedIn, Reddit, Discord, Steam, Roblox, Twitch, GitHub, regional forums.
Tools Used: Standard OSINT search operators, reverse image engines, archival caches.
